Very little wind today which made mark rounding frustrating and hazardous !!!																
We have to exercise patience on these days because it is hard to avoid people in such fickle winds.																
If we miss the mark we must reround it. It is the same for everyone.																
I did discard a race in the Hcp series because of this frustration as some people were disadvantaged.																
Well done Don and Ray (and myself) in the Hcp races and Dan and Peter in the Scr series
