Well the wind came in quite well but was flukey at the top mark which caused a lot of "incidents"																					
Don took the Hdcp series again and Bunny a clean sweep of the Scr series. Congratulations to you both.																					
I try to adjust hdcps fairly. I don't think we should go higher than 60 sec or lower than 0+10.																					
The top scorers I usually decrease by 5.I leave the middle group and increase the lower group by 5
